## FOREWORD - - -

### Customers and Friends:

We have enjoyed doing business with you the past years, and now that the war is over and everything is at peace, we hope that there will be a continuance of friendly business during the coming years.

Your confidence in Lakeside Gardens has been most gratifying. We want to aid our customers in every way possible so do not hesitate to write us of your problems and perhaps we can work together to raise better dahlias.

Many customers and friends visited us last season and we were very pleased to see and meet them, and also to show them our gardens when they are in full bloom, which is about the first part of August until frost.

We thank you and hope that we can be of some help to make 1946 your best dahlia year.

NICK KOENIG,  
HENRY KOENIG,  
JOHN KOENIG.

### TERMS

Cash with order or a deposit of one half of the order. No C.O.D. orders accepted. When roots and plants are ordered together, roots will be held and shipped with the plants unless otherwise specified. 25c must be included with all plant orders to cover special delivery. We pay all regular postage. Roots will be shipped between April 15th and June 1st. Plants are shipped in May.

### TWO WAYS TO BUY LAKESIDE DAHLIAS

**ROOTS**—Dahlia roots are divisions of field-grown clumps of dahlias. Each root must have at least one "eye" from which the plant grows. Sturdy plants and fine exhibition flowers grow from roots.

**GREEN PLANTS**—Green plants are sprouts or cuttings taken from clumps grown in greenhouses; rooted in benches; potted and grown under greenhouse conditions until well established and then moved outside to cold frames for proper hardening off. When they reach you they are ready for planting. Green plants will produce flowers equal to roots when well grown for exhibition, but will not produce as large clumps for the following season. When properly grown from healthy stock, however, many varieties will produce nice clumps.
